**A “Guest talk on India’s Contribution to Global Science on the occasion of
National Science Day”**

Resource Person: Mrs. Sharada T

Date: -28/02/2025

Place: Seminar hall, Nagarjuna College of Management Studies

Number of Beneficiaries: 145 B.Sc. Students, 6 Faculties

Objective:

1. To motivate students and budding scientists to contribute to global scientific advancements by pursuing careers in research and innovation.
2. To recognize and celebrate the work of prominent Indian scientists like C.V. Raman, Satyendra Nath Bose, Vikram Sarabhai, and others who have made lasting impacts on global scientific advancements.
3. To discuss contemporary contributions in various fields like space exploration, nuclear science, quantum computing, biotechnology, and renewable energy, and how these innovations have influenced global progress.

Brief Write up on the Programme:

The event began with a warm welcome of the chief guest Mrs. Sharada T and Mrs. Aruna C from Deekshitha II year, B.Sc. Student highlighted the importance of the celebration of national science day. The guest Mrs. Sharada T is inspiring our students with a lecture on showcasing India's contribution to global science, provided an insightful overview of India's significant impact on the global scientific community. Mrs. Sharada highlighted India's rich history of scientific achievements, from ancient contributions in mathematics, astronomy, and medicine to contemporary advancements in space exploration, nuclear technology, and information technology.

She emphasized key milestones such as the contributions of Indian scientists like, Sir C.V. Raman, Satyendra Nath Bose, Vikram Sarabhai, and Dr. A P J Abdul Kalam, who have made notable impacts on global science. Mrs. Sharada also discussed the important role that institutions like the Indian Space Research Organisation (ISRO) and Indian Institute of Technology (IITs) play in fostering innovation and collaboration on the global stage.

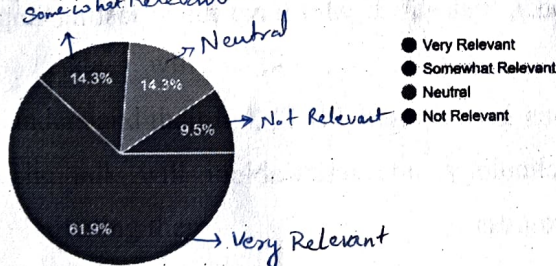

The talk underscored the importance of research and development in India, as well as the country's growing influence in cutting-edge fields like quantum computing, biotechnology, and renewable energy. Mrs. Sharada concluded by stressing the need for continuous support for science and technology education, along with international collaborations, to further elevate India's contribution to global science.

Learning Outcome:

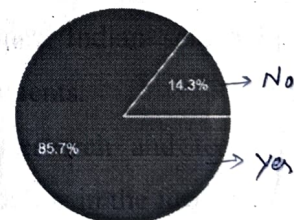

1. Participants will gain a deeper understanding of India's rich scientific heritage, from ancient discoveries in mathematics, astronomy, and medicine to significant contributions in modern science.
2. Attendees will learn about the influential roles played by Indian scientists and understand their lasting impact on global scientific advancements.
3. The talk will inspire students to consider careers in research and technology, motivating them to contribute to the global scientific community in the future.
4. Attendees will recognize the significance of international partnerships in advancing scientific knowledge, and how India's role in global collaborations can help address global challenges.

Feedback:

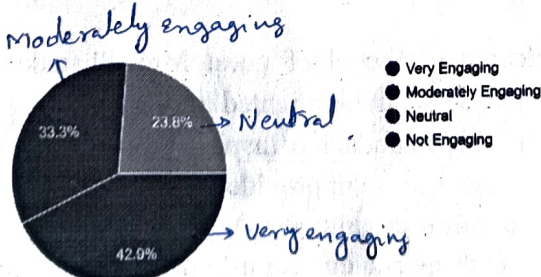

How relevant was the topic to your understanding of anti-ragging measures ?
