## Nagarjuna Group of Institutions (NGI)

Nagarjuna Group of Institutions (NGI) stands as an icon for enriching education, ethics and practical learning for the benefit of society and the young aspiring students. The philosophy and its purpose are rendered in its identity, expressing and committing to leadership and excellence in education.

Foreseeing the necessity of professional academic educational facilities that are imbibed in a strong value system, Nagarjuna Group of Institutions was established in 1995. Under the able guidance of its founder Sri J.V.Ranga Raju, renowned industrialist and philanthropist, NGI is pursuing its mission today with some of the finest facilities in education-from primary school to professional education.

NGI focus on imparting quality education to meet the expectations of the industry and to ensure the competency and employability of students at par with premium institutions and national standards.

## Nagarjuna College of Management Studies:

Nagarjuna College of Management Studies, an addition to the NGI was established by the Nagarjuna Education Society in the year 2015 to facilitate students with quality education. Keeping in view that education is the most important driving force for fostering economic and social development, NCMS is trying to reach out to every corner. NCMS has qualified, committed, and experienced faculty. The college emphasizes on holistic development of the students through various and different platforms. NCMS offers Undergraduate programmes in Commerce, Management, Computer Application and Science and Postgraduate programmes in Management Studies (MBA), Commerce (M.COM), and Computer Application (MCA). The unique feature of education at NCMS is its strong focus on skill enhancement and holistic development of students. The institution has collaborations with various Industries and Institutes of International repute.

## About the Conference

The One Day International Conference on Emerging Technologies through Principles of Universal Human Values is a ground breaking event that aims to bring experts, researchers, and practitioners from diverse fields to explore the intersection of technology and universal human values. The conference is expected to serve as a platform for thought-provoking discussions, insightful presentations, and collaborative exchanges on how emerging technologies can be harnessed and developed in alignment with fundamental human values. Attendees explore the ethical dimensions of technological advancements, addressing concerns related to privacy, inclusivity, and societal impacts. The conference not only showcases cutting-edge research but also emphasizes the importance of integrating principles of universal human values into the development and deployment of emerging technologies. This gathering fosters a sense of responsibility and mindfulness among participants, highlighting the need for a human-centric approach in the ever-evolving landscape of technology.
