Report on

“Managing IPR in Higher Education Institutions”

Date: 25th November, 2025.

Time: 10:30 AM

Venue: Seminar Hall

No of Participants: 134 students (III BCA, III B.Sc).

Learning Objectives:

- To provide an understanding of Intellectual Property Rights (IPR) and their significance in higher education institutions.
- To familiarize students and faculty with various forms of IPR such as patents, copyrights, trademarks, and designs.
- To highlight the importance of protecting innovative ideas, research outcomes, and creative works.
- To create awareness about the processes involved in filing, managing, and safeguarding IPR.
- To understand the role of IPR in promoting research, innovation, and academic growth.

Brief write-up on the Programme:

A guest talk on the theme “Managing IPR in Higher Education Institutions” was organized on 25th November 2025 at 10:30 AM in the Seminar Hall. The session aimed to enhance awareness among faculty and students about the importance of Intellectual Property Rights and the need for protecting academic and research innovations.

The distinguished resource person, **Mr. Ajith S**, Assistant Professor, Department of Computer Science and Engineering, S-VYASA Deemed to be University (School of Advanced Studies), Bengaluru, delivered an informative and engaging session.

During the talk, Mr. Ajith explained the various types of intellectual property, the procedures for filing patents and copyrights, and the importance of safeguarding original ideas in higher education. He also shared examples from his own research, publications, and patented works, helping participants understand the real-world application of IPR concepts. His explanations on ethical rights, infringement issues, and institutional responsibilities made the session highly insightful.

The session concluded with a formal note of gratitude to the speaker for sharing his expertise and valuable experiences.

Learning Outcomes:

- Students and faculty gained a clear understanding of the importance of Intellectual Property Rights in academics and research.
- Participants understood different forms of IPR such as patents, copyrights, and trademarks, along with their filing procedures.
- Learners became aware of how to protect research innovations, academic materials, and creative works legally.
- The session enhanced awareness about ethical practices, originality, and responsible use of intellectual creations.
- The talk encouraged participants to engage in research and innovative activities with a better understanding of IPR management.
