Report on

Guest talk “The future of work: Skills that matter beyond your skills”.

Date: 14th August 2025

Venue: Seminar Hall

Beneficiaries: 120 (Final year BBA & B.com Students)

Resource Person: Ms. Shruthi Narayan, H.R Manager, Tech Mahindra,

Objectives:

- To gain an in-depth understanding of the evolving trends, technologies, and demands shaping the future workplace across different industries.
- To recognize and explore the essential professional skills and competencies required to succeed beyond the academic degree.
- To build greater awareness about career readiness, employability skills, and the expectations of modern employers.
- To motivate and guide towards proactive developments in soft skills and technical expertise for long-term career growth.

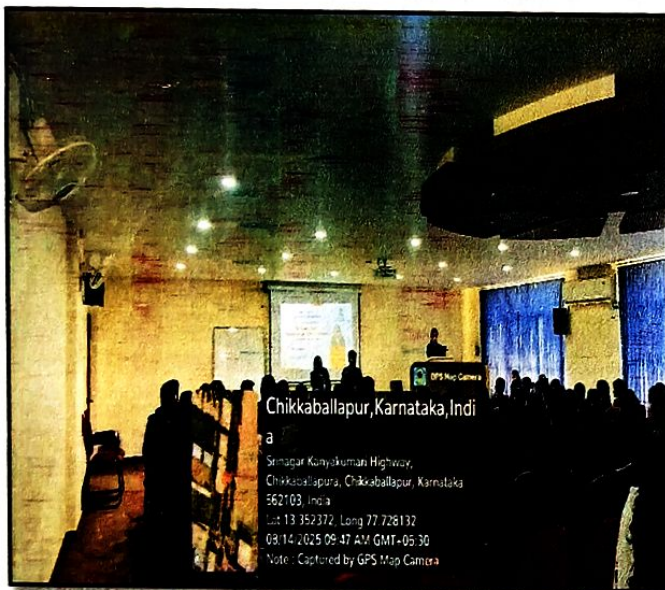

Brief Write – up about the programme:

The Department of Commerce and Management at Nagarjuna College of Management Studies organized an insightful guest talk on the topic “The Future of Work: Skills that Matter Beyond Your Degree” on 14th August ,2025 at the Seminar Hall. The session was designed specifically for final-year BBA and B. Com students to prepare them for the evolving demands of the professional world. The resource person for the programme was Ms. Shruthi Narayan, HR Manager at Tech Mahindra, who brought with her extensive industrial experience and valuable perspectives on employability and career growth. She began the session by highlighting the rapid changes in the workplace brought about by technological advancements, globalization, and shifting economic trends. Ms. Shruthi Narayan emphasized that while academic qualifications are important, they must be complemented by a strong set of transferable skills such as communication, adaptability, problem-solving, teamwork, and digital literacy and encouraged students to take ownership of their career development by actively seeking opportunities to build both technical and soft skills. The talk provided practical strategies for standing out in a competitive job market and aligning personal strengths with industrial requirements.

Learning outcomes:

1. Students will be able to identify and understand the key skills are required to thrive in the future workplace beyond academic qualifications.
2. Students will develop awareness of current industrial trends, technological changes, and employer's expectations.
3. Students have gained practical insights into enhancing employability through both soft skills and technical competencies.
4. Students will be motivated to take proactive steps toward continuous learning and professional development.
